Education

● FACULTY OF COMPUTERS AND INFORMATION, DEPARTMENT OF SOFTWARE ENGINEERING

[Assiut University, Assiut](#) | 2027 - 2023

focuses on providing students with in-depth knowledge of software development principles, methodologies, and tools essential for building reliable and efficient software systems. The curriculum covers areas such as software design, system analysis, programming, software testing, and project management. Students gain hands-on experience through labs and projects that emphasize problem-solving, critical thinking, and collaborative teamwork. The program prepares graduates to excel in various roles within the software industry, including software developer, systems analyst, quality assurance engineer, and project manager.
